

SCOG REPORT
Submitted: August 31, 2009

The last meeting of the committee was held on August 4, 2009. The new owners are very interested in establishing a friendly relationship with the Highlands. They plan to invite all residents to an open house and tour of their facility.

Bruce Coble, will briefly address the community at the Annual Meeting and invite interested residents to sign up to attend the open house. He will provide a sign up sheet. Bruce will be available after the meeting to answer any questions residents may have. They intend to invite Woodland Pond to a similar tour.

The odor log showed several complaints in June and July.
